

February 17, 2022

Vermont General Assembly
Vermont State House
115 State Street
Montpelier, VT 05633-5301

To the Members of the Vermont General Assembly,

We, the undersigned Vermont small business owners, non-profits, and workers, call upon the legislature to develop a program whereby employers can be reimbursed for paying an employee's lost wages in the event of absenteeism due to COVID-19.

The Families First Coronavirus Relief Act (FFCRA) offered needed financial lifelines to families in need by requiring businesses to provide emergency paid sick leave and expanded family and medical leave for those impacted by COVID-19. In return, businesses received FFCRA payroll tax credits which partially covered the costs of providing this critical benefit. These credits were later expanded with the passage of the American Rescue Plan Act (ARPA), but have unfortunately expired as of September 30th of last year—leaving businesses to either pay for these benefits out of pocket or eliminate them all together.

With the recent surge of COVID cases, workers are being forced to stay home to keep their communities and co-workers safe as they care for themselves and/or their loved ones. This loss of work is especially prevalent for parents whose children have been exposed or are presenting with symptoms of COVID-19. Mirroring trends throughout this pandemic, we continue to see that loss of child care or school disproportionately impacts women in the workforce—exacerbating long standing gender inequities. We know that while some businesses have been able to pay their workers for these lost days, many are not able to afford those costs. Similarly, while some families have the savings to remain resilient in these moments, our low-income and hourly wage earners are struggling to meet their financial obligations.

“Since the beginning of the pandemic, Runamok has done our best to position employee health and safety as a top priority. While we are in a much better place than we were in March of 2020, one of our most important tools has consistently been to try to exclude infectious people from our workplace.

On the ground, this comes down to asking employees to stay home if they test positive for covid, have had a meaningful exposure to someone who has tested positive for covid, or have symptoms of covid. Until this January, we were able to provide replacement pay to all impacted employees. Without replacement pay, the burden falls on employees to choose between lost wages, and potentially exposing others at work. That's an unenviable position to be in.

The Families First Coronavirus Relief Act (FFCRA) helped us to do this by reimbursing our company for a sizable portion of this expense. With that in mind, when FFCRA funding ran out in September of 2021, we attempted to fund worker replacement pay on our own. With the recent increase in infections, we have had to change our policy as we are no longer able to manage the cost.” –Eric Sorkin, Runamok Maple, Fairfax, VT

As the legislature considers long term solutions that help to address our workforce challenges, including critical investments in child care, housing, transportation and climate, we ask that you also address the urgent needs of workers and small businesses by establishing a Vermont COVID-19 Worker Relief Fund, that would essentially act as a state-based FFCRA program, to help both workers and small business remain financially resilient during these challenging times.

In shaping this program, we urge you to consider the following to ensure that this benefit is as robust, equitable, and accessible as possible:

- Wage replacement that is commensurate with the need of every day Vermonters
- Wage replacement for workers who need to care for themselves or a family member or care for a child who has lost child care or school for COVID-related reasons
- Wage replacement to support the retroactive reimbursement of wages for workers who experienced losses during the height of the Omicron surge
- Monthly reimbursement to employers as quarterly reimbursement puts an undue burden on the employer and the employee
- In light of the urgent needs of Vermonters, implement this program “Upon Passage”, or within 30 days, rather than the start of the fiscal year
- Inclusive Family Definition to include one’s chosen family
- Eligibility for sole-proprietors - With over 60,000 sole-proprietors in Vermont, we know that throughout the pandemic, this group of small business owners were often delayed or completely left out of receiving COVID relief. We must ensure that these business owners are included in this program.

The final rule from the US Treasury detailing the allowable uses of ARPA dollars clarifies that said funds can be used for the purposes of creating, expanding, or funding paid sick and paid family and medical leave programs, as cited [here](#). With the FFCRA tax credits now expired and the continued community exposure to COVID-19, we strongly support this timely and targeted support program, as it will undoubtedly help to level the economic playing field and ensure that all workers and all small businesses have the financial resiliency to put health and safety first.

Respectfully submitted:
