

USDA Can Help Your Farm or Small Business Reduce Energy Costs

USDA Rural Development's Rural Energy for America Program (REAP) provides grants and loan guarantees to help you install renewable energy systems or make energy efficiency improvements.

United States Department of Agriculture

REAP provides grants 25% of project cost and guaranteed loans through your lender for the following:

- ▶ Installing a renewable energy system
 - Solar
 - Wind
 - Geothermal
 - Hydro
 - Anaerobic digesters
 - Biomass
- ▶ Making energy efficiency upgrades
 - Lighting
 - Airtight windows, doors and ducts
 - Insulation
 - Programmable thermostats
 - Greenhouse curtains
 - And more
