

# intelligent *lives*

a film by dan habib

## LT. GOVERNOR'S 2019 MOVIE SERIES

Hosted by Lt. Governor David Zuckerman

*Intelligent Lives*, starring three pioneering young American adults with intellectual disabilities, challenges perceptions of intelligence in the United States. The film unpacks the shameful and ongoing track record of intelligence testing, and points to a future where people of all abilities can fully participate in higher education, meaningful employment, and intimate relationships.

**Tuesday, October 29<sup>th</sup> 6:30PM**  
Movie will be followed by a panel and audience discussion.
