Subject: Follow up

Hi Nancy,
Thanks again for the conversation earlier this month. Governor Shumlin did go forward with a call for divestment in his state of the state speech.

We'd love to work with your office on a joint letter inviting every governor to divest from coal. I am copying Laura Gray in our office who will be helping to spearhead this for us. Please let us know what would be most helpful, we'd be happy to try a first draft of a joint letter and send to you for editing.
Thanks very much,
Darren
