Good afternoon,  
A good news update for you. BDCC is working on an MOU with GS Precision which they hope to get approved and signed next week. When signed, Norm will provide a check for \$100,000 toward development costs. This is sooner than we expected. But this paves the way for an announcement and to move the project in to high gear. I will keep you posted!

Good morning,  
Attached please find a memo for your approval Governor for Windham County Economic Development Program funds for the expansion of GS Precision. As is the protocol, we ask you to approve the use of funds as described in the memo. At this time, GS has not committed to the Vermont expansion. All signs are positive particularly after VEPC approved VEGI incentives this past Tuesday. Let me know if you have questions.
