4. **Other**

a. VTSU Memorandum of Understanding was reviewed. The Board asked for additional information.

- b. The Board reviewed an email regarding maintaining confidentiality in a school setting. The Board did not provide an official statement, but there was a discussion by mental health licensees who have experienced related professional and ethical issues. Board members discussed what considerations should be relayed to the licensee. They are as follows:

- Retaining private counsel regarding their obligations to disclose or retain privacy (HIPAA, FERPA, and Part II play a role here in patient privacy and whether the licensee is subject to those laws);
- Contacting the licensee's liability insurance company;
- Investing in trainings which examine the requirements and distinctions of HIPAA and FERPA. There is a free series on FERPA available through the Federal Department of Education;
- Contacting whatever professional counseling associations they are a part of, including the School Counseling Association, for example;
- Reviewing issues set out in 42 CFR Part 2: who is the client? What does the contract say?, etc.

5. Applications

Mr. Wubbenhorst moved, seconded by Ms. Ramniceanu, to approve the actions taken by the Board in the following applications. The motion carried.

Dalton, Olivia - Traditional endorsement from Pennsylvania. Pennsylvania is not substantially because it does not require a Diagnosis course, they accept 2 semester credit courses and allow for a variation of exams. Vermont requires a diagnosis course and requires each course to be a 3-semester credit course and requires the NCE and NCMHCE from NBCC. The applicant may apply through examination.

McDonough, Meghan – MFT Traditional endorsement from New York. New York is not substantially equivalent because it does not require the same supervision requirements as Vermont does. It appears that she may meet the requirements for the 3-year fast track basis of licensure.
