
This act summary is provided for the convenience of the public and members of the General Assembly. It is intended to provide a general summary of the act and may not be exhaustive. It has been prepared by the staff of the Office of Legislative Counsel without input from members of the General Assembly. It is not intended to aid in the interpretation of legislation or to serve as a source of legislative intent.

Act No. 39 (S.1). Public service; renewable energy programs; baseload renewable power portfolio requirement

An act relating to extending the baseload renewable power portfolio requirement

This act extends the requirement for distribution utilities to purchase power from the baseload renewable power plant at the same rate as the current contract for two years. It requires the plant owner to report back to the General Assembly on whether the plant will have a project collocated at the plant. It also requires a report back to the General Assembly on how to mitigate the impacts on the economy if the plant were to close.

Effective Date: May 20, 2021
