MEMORANDUM

TO: Neil Schickner, Joint Fiscal Office

FROM: Matt Riven, Chief of Finance and Administration
Jeff Loewer, Chief Information Officer

DATE: January 26, 2016

SUBJECT: Requests for Judicial Bureau Data

Thank you for your various requests regarding Judicial Bureau data. In the spreadsheet that accompanies this memo, we have provided Judicial Bureau Traffic Module VCVC Offenses by Category and Fiscal Year in a format that should allow you the flexibility to aggregate this information to fit your needs. Please note the following important points that must accompany this data:

- The Judicial Bureau's jurisdiction is outlined in 4 V.S.A §1102.
- Our legacy Case Management System and the accompanying practices and procedures in the Judicial Bureau do not easily allow us to produce the reports needed without extensive manual intervention. Therefore, in this spreadsheet we have used our average collection rate of 90% over a five-year period from date of the penalty amount; please be aware that the actual collection rate may be higher or lower per offense code.
- Judiciary VISION revenue reports will not reconcile to this data as VISION revenue reflects what has actually been collected, not what is anticipated to be collected. The Judiciary Finance department reconciles actual VISION receipts to our legacy Case Management System on a monthly basis.
- We have used your definition to establish the reporting category of "Traffic." These are offenses under Title 23 generally, but not always, excluding commercial vehicle offenses and offenses related to school buses.
- The reporting category of "Other" includes violations under Titles 5, 7, 10, 13, 16, 18, 19, 20, 21, 23 (Commercial and School Bus), and 24, excluding Fish and Wildlife.
- Assessed Penalty Amounts reflect amounts ordered by judicial officer, not the statutory or waiver amount.

Please let us know if you have questions or concerns regarding this information. We appreciate your patience and look forward to being better able to serve our partners in the Justice Community and State government as we embark on our Next Generation Case Management System, which will drive and enable the transformation of the Judiciary's case management process from a paper-driven to an electronic-focused business model.

* The Judicial Bureau's jurisdiction is set out in 4 V.S.A §1102

* Category of Traffic was specified by Neil Schickner at JFO. These are offenses u
excluding commercial vehicle offenses and offenses related to school buses.

* Category of Other includes violations under Titles 5, 7, 10, 13, 16, 18, 19, 20, 21
excluding Fish and Wildlife.

* Assessed Penalty Amounts reflect amounts ordered by judicial officer, not the :

* The dollar amounts reported as Expected Collections do not tie to VISION as th
collection rate of 90% over five-year period from date of penalty amount, not act

under Title 23 generally, but not always,

L, 23 (Commercial and School Bus), and 24,

statutory or waiver amount.

ese are estimated revenues based on a
ual collection amounts.
