Mr. Loucks,

Please find the letter you requested attached. Apologies for the delay.

Thank you,
Jessica

Jessica;

I haven't received a response yet to my request for a copy of the letter Governor Shumlin provided to ANC Bio as an endorsement of the project which was included by the project sponsors in their Private Placement Memorandum.

Any update on your end?

Jessica:

Thanks for dropping me a line.

To reiterate the request, I am seeking a public record through your office.

In the conduct of his business as governor, Governor Shumlin prepared, signed and sent a letter to either Mr. William Stenger, Mr. Ariel Quiros or one of the several businesses which they are associated with - Jay Peak, ANC Bio VT, et. al.

I believe that this letter was an endorsement for these individuals, or the AnC Bio project the two have been working on for several years.

(The letter is referred to in a document prepared by ANC Bio VT in their submission for a

private placement memorandum. Section 5, Schedule of Exhibits, Exhibit C - Letter from Governor Peter Shumlin.)

As we discussed on the phone, I am aware that you are unable to respond to my request prior to June 24th due to a scheduled vacation. I would appreciate a prompt response when the governor's general counsel returns. Thanks.

PETER SHUMLIN
Governor

State of Vermont
OFFICE OF THE GOVERNOR

October 3, 2012

Ariel Quiros, Chairman
AnC Bio Vermont

Bill Stenger, President & CEO
Jay Peak Resort

Dear Ariel and Bill,

What a great EB-5 project you have created with the AnC Bio Vermont Program. I'm so pleased that this investment is being made in Newport, Vermont and that it will result in so much quality employment for the region. This project being organized by Jay Peak will certainly be successful and have the same positive impact that the Jay Peak projects have had on our state.

AnC Bio Vermont will produce a variety of bio-medical products that will have worldwide market appeal. It will also offer a wide complement of "Clean Rooms" for the benefit of colleges, universities and small bio-science companies around the world. I'm especially pleased that AnC Bio Vermont has established a strong working relationship with the University of Vermont, our state's most prestigious research university.

I look forward to the future success of the AnC Bio Vermont project and am available to meet at any time to assist in its development.

Sincerely,

Peter Shumlin
Governor
