No. Justin is our guy and he has been on vacation down under for the last week. I think he will be around this week. I push from you might be helpful at this point.

Alex and Bill,

Chuck was just here meeting with Michael Clasen and he stopped by on his way out to ask that I give you a heads up re: the latest on-farm slaughter update. House Ag wants to push custom slaughterhouses forward and have asked Ag testify on Tuesday at 3:30 (Chuck is going to do it). The momentum is toward requiring all itinerant slaughterers to utilize a custom slaughterhouse. Chuck will be asked for the agency's position and he needs to know how to proceed.

Thanks,
Dru
