Dear Senators,

I am writing today to encourage you to vote a strong NO to the GWSA. This bill is bad for our state and opens the door to a litany of litigation and exposes our great state to bleed more money than we already do.

The additional cost for the design of an action plan is also fiscally irresponsible, especially in today's economic crisis, effectively passing the burden on to already cash strapped companies that are literally holding up (barely) the Vermont economy.

The State of Vermont is already the largest employer in the state. When will you be thinking of tightening the belt, trimming some of the fat, and help Vermonters get through the struggles of today? I would feel much better if you started thinking about the economy here, and how we can bring and keep businesses in this great state, to keep our youth here and help Vermonters thrive.

Thank you for your consideration.
