Darren-

Attached is the language IBM will need to introduce. I've talked with Sen. Ashe and Sen. Mullen. Sen. Ashe would like me to forward the additional language to Aaron.

Dan—please let me know if this language amends the SMEEP provisions to cover the situation you described. This would be a new separate section 5 of 30 VSA section 209 (j) and also would replace the language you sent me because I covered that in this new section 5 also.

Len-

Thanks for putting up with the back and forth today, and thanks in advance for you work on the issue!

Here is the language I've amended:

Sec. 15. 30 V.S.A. § 209(j) is amended to read:

(j) Self-managed energy efficiency programs. ** *

(4) All of the following shall apply to a class of programs under this subsection:

(A) A member of the transmission or industrial electric rate classes

shall be eligible to apply to participate in the self-managed energy efficiency program class if the charges to the applicant, or to its predecessor in interest at the served property, under subdivision (d)(3) of this section were a minimum of \$1.5 million during calendar year 2008.

Let me know of any questions you may have

Dan
