Hello Darren,

I work at Trillium Asset Management which has worked with a number of institutions that have successfully divested from fossil fuels, including Sterling College.

Elizabeth Courtney, my mother, suggested I reach out to you to offer to speak about divestment and to share our expertise.

Through our work with Bill McKibben and others we have put together a few white papers that may be of interest:

If there is a time in the next week or so that is convenient for you, I would be happy to chat about this further.

Best,

Jonas
