Subject: RE: fee bill amendments

Arguably that federal definition is already incorporated through the bill's reference in (b)(1) to federal law, 18 USC 922. But for clarity, the suggestion will be to add to the bill's definition section a citation to the federal firearm definition. There isn't currently a definition of firearms in this section, and this section is not just about "unlawful firearms" defined in a nearby section in the same chapter – that definition has language about using the firearm in the commission of a felony. (Firearms under this section are those covered by federal law.) So, it is another technical, clarifying suggestion.

Thank you, Sarah. I'm sure you will go into this on Wednesday, but why does the bill need to reference the federal definition of firearms?

Hi Laura, apologies for delay I am out sick and not in the office today. I will likely walk through these changes Wed. Many are technical in nature, including adding reference to the federal definition of firearms. We will also suggest language to make more clear that the law does not prohibit the lawful sale of firearms. Hope that's helpful!

Sarah

Hi Sarah,

I don't know if you got my last email. Sen. Sears told me your office plans to offer several amendments to the fee bill having to do with the firearms storage section. What are they?

Thanks,
Laura
