

Follow-up Testimony from Marsha Faryniarz H.171

- 1). Has anyone reached out to staff regarding BFIS upgrade input? The answer is no
- 2). What is the full cost rate for infant/toddler care? If the Y charged what we needed to cover our full expenses for Infant/Toddler in Burlington, we would need to increase our current rates by approximately \$80/week/child. This means our current infant rate would be roughly \$470 vs the current \$389 we charge for infant care.

Lastly, there was a math error in the subsidy numbers I submitted. We charge \$389/week for infant care, we receive \$280/week from the state for families who qualify for 100% subsidy. This is a difference of \$109.00/week, not \$117.60. The \$3800 loss per week due to the subsidy gap is still correct.

I appreciate you getting this information out to the committee members. Thanks again for your support Bridget.
