

“A fundamental right to Abortion “ without restrictions right up to birth is what you are advocating for in H-57. Viability not withstanding. Heartbeat, fingerprints, brainwaves not withstanding. Excruciating pain not withstanding. The truly Fundamental Right to Life not withstanding. Parental/Guardian involvement in a minor’s life not withstanding. Non physicians performing abortions not withstanding. What you are left with is the naked power of The State violating its First Duty to protect the God given Right to Life, Liberty, and The Pursuit of Happiness of it’s citizens.

Shameful,

Frank Hassler
