**MEMORANDUM****CONFIDENTIAL**

**TO:** Darren Springer, Chief of Staff  
**FROM:** Pat Moulton, Secretary, ACCD  
**DATE:** June 3, 2015  
**SUBJECT:** Vermont Enterprise Fund

Darren, Below is a list of possible recipients of funding from the Vermont Enterprise Fund (VEF) with the allocation we are thinking and an estimate of the jobs to be created and/or retained. As you can see, we can commit the entirety of the remaining funds with additional projects possible.

The Governor has signed off on the amount to BHS composites. We are still working with the GE supplier and Resolute and are not ready to commit funding quite yet. GS Precision is moving ahead with more exploration of a site in Brattleboro but has not yet committed but should within the next month. GW Plastics will be making a decision before the end of the year. Both of these amounts are needed to help seal the deal for the expansion in Vermont. Vt. Castings, Mack Molding and Britton Lumber are other possibilities if we determine some of the new companies are not likely.

I would like general approval that we use these funds in this way, for new companies and expansion of existing companies when we risk losing the expansion. Let me know if you need more.
