**Subject:** RE: Screening language change

In the set of instructions to the Board, there is one that requires consistency with screening in 209(d) and 218c; the idea is to add "where applicable" to the end (or wherever it fits in the text) so that we don't have to try to fit innovative "transformation" ideas into existing screening-tool shaped holes.

Asa

Did they make it into the draft yesterday? I didn't see it.

I won't be in Montpelier today but if the issue does come up you are welcome to see that VEIC supports.
