10 MILLION

KIDS BENEFITTED

The IAMECO Warrior Foundation is a crowdsourced social movement that mobilizes and connects visionaries, innovators, and creators in order to inspire and engage the global community in a sustainable future for our planet.

Our objectives are to raise ecological consciousness, to encourage and promote "Eco-warriors", and to mobilize and match funds for the sustainable development areas and goals we want to impact.

The Akuo Foundation, under the aegis of the Fondation de Luxembourg, supports and initiates projects giving access to renewable energy, access to education and knowledge, access to water and health services, all the while protecting the environment and its biodiversity. The Akuo Foundation interconnects its four missions to demonstrate the following: environmental preservation and humankind respect are the conditions for a flourishing and sustainable economic development.
