To Whom It May Concern.

Mr. Springer.

I have send a similar request to Public Safety.

WCAX requests all invoices, expenses, receipts, bills, and records connected to Governor Shumlin's December 2105 visit to Paris, France in connection with a climate change conference. This includes all financial matters related to the Governor's security detail with Vermont Public Safety. This all includes all matters related to the Governor's expenses and the expenses of Secretary of Markowitz.

If you are not the custodian of these records. Please direct us to the correct agency or person.

Thanks
Anson
