**Subject:** RE: Records Request

Shay-  
No member of the Governor's office videotaped this event. (A member of the Governor's staff did take photos, but I understand you are not interested in those.) My understanding is that the Deputy Secretary of Administration Michael Clasen videotaped a small portion of the meeting. By copy of this email I am forwarding the request to him.  
Thanks,  
Beth

**Subject:** Records Request

Beth Robinson, Counsel to the Governor  
Office of Gov. Peter Shumlin  
State of Vermont  
109 State Street  
Montpelier, VT 05602

October 13, 2011

Dear Ms. Robinson:

In accordance with Vermont law 1 VSA §§ 315-320, I request that the following information be provided to me within the timeframe ascribed by Statute:

\* A copy of the video recorded by the governor's office of a September 23, 2011 meeting with Agency of Natural Resource employees, and others, with ANR Secretary Deb Markowitz and Administration Secretary Jeb Spaulding.

It's my understanding the meeting occurred on the campus of Vermont College on or about the date listed above and that a member of the governor's staff recorded the meeting with a video camera and took photos. I am only interested in a DVD copy of the recorded, unedited video.

If you are not the custodian of these records, please forward this request to that individual, and identify that individual so I can follow-up with them directly.

For all information you withhold which falls under the purview of this request, please describe the nature of that information and the statutory basis for which you are denying access.

Please let me know when this information would be available to review or pickup. If this information can be made available in electronic format, thereby avoiding the time and waste of creating paper copies, I would request the information be provided in such manner.

If you have any questions, feel free to contact me directly at (802) 324-3198.

Sincerely,  
Shay Totten
