**Subject:** Information/Guidance on Act 166 and Fingerprint Supported CRCs

Hello Hal, Rebecca and James,

At the Act 166 meetings two weeks ago, last Friday and today, I expressed concerns that implementation issues related to fingerprint supported criminal record check requirements have not been resolved.

Irrespective of that fact, I believe that school districts and providers need to receive information as early as possible this week about where things stand and what the plans are regarding the start of publicly funded pre-k for children within the next several weeks. I fear that it is already well past the point when this information should have been provided to school districts, however it remains imperative that this information go out as soon as possible.

Thank you.

Jeff
