**Subject:** [External] Bill number (H.716)

[External]

Thanks for taking the time to consider this and the many other emails and correspondences you are receiving.

I am a psychologist and assess children and adolescents for learning disabilities. Please remove the second part of the Bill H.716. The changes to Special Education Rules should not be delayed for another year. It is so important for students who need services to get services right away rather than waiting for them to fail.

**Allow the Special Education Rule changes to take effect as planned on July 1, 2022.**

**Thanks in advance for your consideration.**

**Sharon G. Leach, PhD**  
Clinical Neuropsychologist
