Subject: RE: response to public record requests

Hi Jennifer, Jess's response means that we will need an extension for your requests as we work to process earlier requests we have received (the one for former staff emails). Thanks,

Scott

Subject: RE: response to public record requests

Jessica,
Does this response apply to non-EB-5 related public records requests?
I have one non-EB-5 related request (4/21 Peep the Duck related request) that I have not gotten a response to, or a formal request for the 10 day extension, as required by law.
Can you please help me figure out where that particular request stands?

Subject: response to public record requests

All,

We are seeking to process public record act requests in the order in which they are received. Due to the volume of requests, please be aware it will likely be a few weeks before we are able to process and produce records in response to your request. We will further respond to your request in the coming weeks.

For public record requests that involve emails contained in former staff accounts, as stated in my email to you on Monday, please be aware that we are processing a prior public record act request for the entire contents of former staff accounts that were slated for deletion. That request either fully or

partially encompasses the requests you have made. We are working to fulfill this request as quickly as we can and expect to make a large production of former staff emails by the end of this week. We will advise you when those records are available.

Thank you,
