Subject: Gov. Shumlin statement on bill to shore up the Highway Trust Fund

For Immediate Release

August 1, 2014

Gov. Peter Shumlin issued the following statement after Congress passed a bill to shore up the Highway Trust Fund:

“I am relieved that Congress has provided a short-term fix to the Highway Trust Fund which will allow the projects we have under construction in Vermont to continue. Our economy depends upon a strong infrastructure, and it’s disappointing that Congress did not address the long-term challenge of declining revenues going into the Highway Trust Fund. No amount of last-minute, short-term fixes will solve this long-term problem. Governing by crisis does not provide the certainty that states need to make smart investments in the future.”
