Hi deb -

Looks as if we don't have a uniform policy! I did figure out that we sped 200k a yr on bottled water though. I think we should say that we are going to implement a no bottle water policy beginning this summer But need to convince gps of that plan!!

Will let u know @ cabinet meeting.

I am getting ready for the water day event tomorrow. Did you ever figure out our current policy? Do we want to do something on this? The union is behind reducing expenditures on bottled water (Jes Kraus is one of the speakers.)
