Subject: Fw: City of SB

All,

I sent this to my team earlier this afternoon. As you know the Guard will remain professional and a community leader. Please let me know if you have questions. I expect the media will cover this next week.

Best

Steve

Leaders

I was notified earlier today by SB City Council chairwoman, Helen Riehle that they will file a motion to join the city of winooski lawsuit against the AF and F35. This resolution will be discussed on Monday. We will not participate publicly and if any residents do go please be careful as this issue will fall under the litigation rules. Although I am concerned and somewhat taken back by the action, the VTANG will remain a strong community partner to include our ongoing community engagement plan. This political activity will play out as is has in Winooski but the Wing must remain focused on our current mission and look ahead to our new mission. I appreciate your professionalism as we collectively as green Mountain Boys take the high road and move forward. That's what we have always done and will continue to do.

Thanks in advance and for your leadership.

V/r.
