Subject: Testimony in support of H.357, Ban on Wanton Waste

Dear Chairwoman Sheldon and Distinguished Members of the House Fish & Wildlife Committee:

Attached please find Protect Our Wildlife's testimony in support of bill H.357, a bill prohibiting wanton waste of wildlife. In an effort to reduce the number of large files attached to this email, we placed some of the exhibits on the cloud and can be found here:

Retired VT warden's email re wanton waste: <https://docdro.id/98Sxpha>

Head of VT law enforcement stifling dissenting opinions:

<https://docdro.id/u1GFZ7I>

Crow shooting contest: <https://docdro.id/yGER3gr>

The attached images below were posted by Vermont hunters and trappers and display examples of wanton wanton. We also refer you to [this link](#) that includes a 2018 document prepared by the VT Coyote Coexistence Coalition displaying examples of the gratuitous and wasteful killing of coyotes. We've redacted personal information to protect individual identities.

Respectfully,
Brenna

Kevin Lawrence Maybe you should post a picture of the crow pie or stew you cooked ? Seriously, outdoor users need to rethink how they post.

Sterling I think we should propose a bald eagle season then because too many poor animals loose there lives to birds of prey which could feed our growing mountain lion population lol

Like · Reply · 11 mins

Sterling You'd be hard pressed to catch me eating a crow lol. I'll eat just about anything else but when you see a shit covered crow pecking a bloated possum carcass on the side of the road.. I'll stick to venison haha

Kevin Lawrence 802 Hunt Crew: it's time for page administrators to delete provocative comments. We are smarter than this, unless this is the work of anti-hunters trying to make hunters appear insensitive. I see these same comments dangled in front of legislators who use this against us time-and-time again. Please, be the managers of content.

Kevin Lawrence Nothing good comes from being sarcastic, distasteful, over-the-top, or offensive to these folks. They call me names and swear-- oh well. but no one benefits from conservationists being rude and antagonistic. Stop it, please. It's not funny and it hurts consumptive users.

Arrowhead Trapping Supply Make it fun. Money is not the object for me. Matching wits with critters and winning is enough pay for me. Good luck everyone
