

Please choose life! If you choose to pass this bill, you are voting for murder. Every fetus is a human being and should have rights to have a voice. So many people can't have children, adoption should be the choice not abortion. Women do regret having had an abortion and risk not getting pregnant when they want to. They can have many complications when they do have children. I was raised by a single mom, I'm glad she chose life. Please do not pass this bill.
Sincerely,

Lisa Shearer
