 - a. Louise Miglionico, Ph.D. wrote the Board asking if all continuing education credits needed to be obtained under the new rules that went into effect November 2012, or if one can obtain continuing education credits under either the old rules or the new rules. The Board determined that one can either follow the rules that were in effect prior to November 2012 or those in effect at this time. Either would be accepted. After 2/1/14 one would be required to abide by the most current rules which became effective November 19, 2012.

- b. Kelly Allen emailed the Board regarding billing questions. The Board responded that its statutes and rules do not address activities of students in graduate programs.
 - c. Bekah Kutt emailed the Board with questions in regards to billing “incident-to” guidelines. The Board responded that there is nothing in its rules or statutes addressing family members supervising other family members. The only limitation under the Board’s rules regards supervision of post degree supervised practice toward licensure. A family member would not be eligible to supervise another family member for purposes of post degree supervised practice toward licensure. Nothing in the rules addresses supervision for purposes of billing. The supervised practice toward licensure limitation is the only one that the Board’s rules specify.
 - d. Deborah Bianchi submitted an email regarding internship hours. The Board responded that they are unable to answer her questions about the acceptability of her post degree internship hours based on the information she submitted. Her inquiry will require a full examination of her education including pre-degree internship. This can be done after she has submitted a complete application.
8. Additions to the Board's next meeting:
- a. Review of rules regarding supervised practice.
 - b. Policy on Ratio of Supervision to Practice Hours.
- 9 Public Comment
10. The Board adjourned at 12:00 p.m.
