

1 H.431 Senator MacDonald

2 Sec. XX. INTERCONNECTION MAPS

3 A retail electricity provider and Vermont Electric Power Company shall  
4 provide a GIS-based interconnection map depicting the location and capacity  
5 of existing substations, circuits, and fiber and noting any significant  
6 impediments to interconnection to the Public Utility Commission, which shall  
7 make them available to municipalities, energy service providers, and other  
8 relevant persons as appropriate to assist in determining locations for new  
9 renewable generation. Retail electricity providers and Vermont Electric Power  
10 Company shall update the maps not less than quarterly or on a more frequent  
11 schedule set by the Commission.
