Wilmington, Vermont 05363

Dear Todd:

Thank you for taking the time to contact my office. I appreciate you sharing your views on the COVID-19 pandemic and vaccine distribution led by the Governor.

I share your concerns. We must work to vaccinate the most vulnerable in Vermont and our work cannot stop until every Vermonter is vaccinated. I am hopeful that more vaccines will be allocated to Vermont in the weeks and months ahead as the Federal Government ramps up procurement and distribution.

I am deeply committed to elevating the voices of Vermonters in Wilmington and across our State and I hope you will not hesitate to contact my Office again.

I wish you good health as we work together to ensure Vermont recovers stronger from this pandemic.

Sincerely,

Lieutenant Governor of Vermont

Dear Sir, are you guys out of your minds? You vaccinate ski patrol people first???? You people are only out to keep this disaster called capitalism going just so you dont have to change. You fail to care about the people first. teachers going back without being safe. kids going back so you can put their parents back to work just to fill oligarchs pockets. you baby boomers have done nothing to really better society at all. all you created was a continued feudalism, modern day that is. i am by no means at all right wing in fact im for humans and workers, but i do not agree that the people yesterday were anything other than pissed off by all your lack of action. the us and state governments have failed the people in the last 40 years by giving in to corporate interests only. ge3t a pair of balls and go against the norm of ruining society. we need real leaders ready to help the population not the elite.
