James

When the bill is complete and our analysis is complete we should reconvene the group. I appreciate your efforts to include many of the recommendations of the HIA but think there may be some that are not clearly addressed.

Harry and Hal –

Here is the current version. Sears has already suggested some edits that are not represented here, but I will get you an updated draft when I have one. Also, we are going to add a piece on prevention and dedicating a significant piece of the revenue to that goal. I worked with David and Barbara to get language for this draft, but it sounds like Sears wants to wait for the recommendations from Senate Health and Welfare.

Please let me know if you have any questions.

Thanks!

Pepper
