

Dear Committee Members,

I want to voice my support of bill H.57 for reproductive rights. My opinion is a result of careful thought as a physician, a concerned member of our community, and as a parent. To paraphrase the thoughts of the VT Medical society, we should prevent government interference between a patient and her healthcare practitioner and to allow healthcare practitioners to provide the highest quality, evidence-based, compassionate care that aligns with a patient's goals.

Thank you for your consideration of this important matter.

Sincerely,

Christine Weinberger
