

What would you do if you were LtG for a day?

- I want people to advocate more for BLM
 - Better internet service for people living in rural Vermont
 - More charging stations for electronic cars
 - Help and support diversity encouragement
 - I hope we find a way to stop Covid-19
 - Stop racism
 - Put more skateboard parks around Vermont
 - Ski passes for every Vermont student
 - Make playgrounds more handicap accessible
 - Cheaper or free medical care—medical bills can be really high and that's not good for people who don't have enough money – but the people who work in the hospitals who work very hard should be paid by the government
 - Make kids not have to say yes for mental health – a kid has to give permission to get help from NCSS (we should be able to get help when we need it and not have to ask for permission)
 - Better mental health services in Vermont – instead of sending the police – we should be calling people with training when we're having mental health crisis
 - Pool noodle fights in the in office
 - Boost ice cream production by 100%
 - Make sure people are being more cautious of the wildlife
 - Make sure everyone is treated equally
 - Make more pet shelters
 - Find a way to reduce pollution and waste
 - Making energy or art out of garbage
 - Teachers should learn how to speak Chinese
 - Make sure all the forests remain in tack- no deforestation
 - Less zoos because we need more wild animals (only put endangered animals in the zoos)
-
- Help make education more accessible.... remote schooling has been really helpful for some students
 - Making pre-k free for all kids
 - Affordable housing -- especially for single family households and single parents
 -
