Gov. Shumlin Statement on House Appropriations Committee Vote

MONTPELIER – Gov. Peter Shumlin issued the following statement following unanimous approval of the 2016 Vermont Budget Bill in the House Appropriations Committee.

“I commend Appropriations Chair Mitzi Johnson and the members of the House Appropriations Committee for their hard work and for making the difficult choices required to control spending and protect Vermont taxpayers. My budget team will take a close look at the specifics in the bill passed this afternoon, and will continue to work closely with the Legislature as the budget makes its way through the next steps in the House and on to the Senate later this session. I remain committed to making sure this budget responsibly spends our limited resources to advance our economy and protect our most vulnerable.”
