Subject: Constituent Management System

Hi Scott,

We are working on a project related to IT projects across the state government, and I'm writing regarding one project listed for the governor's office.

I'm hoping you could send me three pieces of information about the project below; the **RFP**, the **award status**, and the **five-year cost estimate** for the project.

GOVERNOR'S OFFICE CONSTITUENT MANAGEMENT SYSTEM	Maintenance of a constituent management, document management and business process management (BPM) delivered via the cloud from a secure datacenter facility.

Please let me know if you need anything else.
