Subject: Re: H.40 amendment; 8am start

Sounds like a better idea
See you tomorrow
C

Sen. Chris Bray
Addison Senate District

Hi Chris,
One change we would request is that instead of Governor appointment of utility for work group on Line 12 Page 7 that the Vermont System Planning Committee select a utility from its membership to participate. That group includes all VT electric utilities, the efficiency utility, VELCO, etc.

They would be better situated to make that appointment in this context. Please let me know if any questions, I am happy to suggest in committee tomorrow but wanted to give a heads up.

Thanks
Darren

Gentlemen,

Thank you for coming by this afternoon to share your thoughts on the working group. Please find attached the complete amendment for H.40; pages 6-10 address the working group.

If you have any thoughts or suggested edits, please commit them to writing and bring them along (20 copies would be helpful to everyone in the room). We begin at 8am.

I'd also appreciate it if you'd email them to me in advance and even give me a call (802 371 8183) if there's a major issue from your point of view.

Best,

--Chris
