Subject: Fish and wildlife board members

Hi Jessica....I have recently heard that past members of the fish and wildlife board members have had fish and wildlife violations...i.e. they broke state wildlife laws while determining state fish and wildlife laws.

Can you tell me in your official capacity whether any of the current members have any fish and wildlife violations?

Also do you have information on whether past appointees coming out of your office have in fact committed such violations and what steps were taken when your office found out about those violations?

Thanks. Walter
