REAL PEOPLE. REAL FOOD. REAL CHANGE.

**DO YOU WANT
TO BECOME PART
OF THE NATION'S
FOOD SYSTEM
RENEWAL?**

VERMONT IS OUR CLASSROOM VermontFoodEducation.org

We grow, regulate, and distribute food, one of our most fundamental needs. When you learn in Vermont, you become part of a larger community of leaders, researchers, and catalysts for the sustainability and integrity of global food systems.

Vermont schools have graduated innovative thinkers, advocates, farmers, retailers, and restaurateurs who are leading the charge in how the nation thinks about food. You are the steward of the future. Through learning, you will define how

The 21-day Vermont Food Systems Study Tour: Summer 2015 examines place, players, policy, and profitability. "First," "Most," and "Highest" most often describe the Vermont food system. Now is your chance to work with Vermont's food system leaders and discover the successes of the Vermont food system—and the challenges for the future. You will traverse the state, learning from farmers, policy experts, food justice advocates, agricultural education specialists, land conservationists, and entrepreneurs of all types. Each day, you'll move from the classroom to the fields, forests, businesses, and offices that make the Vermont food system a model for the nation.
