b. There was a lengthy discussion on Rule 2.1. Colin will redraft section 2.1 to reflect this discussion. During this lengthy discussion there were two motions made. The first was to seek an exemption for board certified nuclear cardiologists from the statutory requirement of obtaining ionizing radiation privileges. This motion was seconded and approved. The second motion was for the board to make it clear in the rules that ionizing radiation privileges cannot be delegated. This motion was seconded and approved also.

c. There was a motion and a second to remove direct supervision from 2803(6) and make it general supervision. The vote was unanimous and the motion was approved.

d. PET competency needs to be addressed and the board will look into this after the statute and rule changes already in process are completed.

e. Jane and Colin will be going to the next Chiropractic Board meeting on November 4, 2014, to discuss the exemption for ionizing radiation privileges. Jane and Colin will report back to the Board at the next meeting in January.
