

I am writing to express my strong opposition to this bill as it is currently worded. While I am pro-choice, I feel that this bill is far too vague and should have protections for viable fetuses. It is my opinion that a pregnant woman has ample time during her first trimester to determine if she wants to terminate her pregnancy. A third trimester abortion is akin to infanticide. Please consider the very dire and serious repercussions of the passage of this bill.

Thank you for your consideration.

Sincerely,  
Melissa LaCross
