Darren,
Below are more answers to the questions we discussed on the phone. Please review and then lets discuss how we move forward. We think the board of armories need to meet by the end of May to allow the VTNG to lease the Westminster land. The Armory board consists the Gov, the TAG and the Army National Guard Assistant TAG.

Steve

////////////////////////////////////

Good Morning Sir:

I have obtained answers to two of the questions.

Colonel, the site is located on Solar Drive in the Town of Westminster, Vermont. The solar project will be located on lots 3, 4 and 5, vacant land, contiguous to the existing National Guard property and within a commercial subdivision known as Westminster Business Park. There exist no mailing address, at this time.

There are no environmental issues within the development area. Any wetlands are off the development property and have been identified by mapping. All sets backs will be respected.

All credits will be deployed within the State of Vermont.

MXHELIES

Gentlemen:

I need the following information for the Governor's office.

- Site address. Any environmental concerns with the site?
- Will all the credits be used in the state?

Thank you.
