

Hi Denise:

I'd like to offer my opinion on the proposed gun control changes to the Burlington City Charter.

As you know, they conflict directly with state statute that proscribes municipalities from regulating the possession of firearms. This statutory protection is there for a good reason, and these charter changes are intended as an attack on that protection.

As such, they are of concern not just to Burlingtonians, but to all Vermonters.

This is to register my opposition in the strongest possible terms to H.566, 567, and 568.

Respectfully:

Eddie Garcia
