

Government happens to be the worse persecutor of people because when they dislike something, they have the power to destroy or eliminate.

Example:

The "Dred Scott" decision in 1857 by the Supreme Court said that African Americans were not deserving of becoming an American citizen. This ignited the Civil War.

Here we are in the 21st Century and some women do not want to give rights to the unborn. So, they happen to be in power in Vermont deciding that unborn babies have no rights to live and become American citizens.

Their rights, women's rights, apparently, over their body overrides the rights of the baby to live and become American citizens.

I hear the slogan by these women "Government keep your hands off my body" and I agree with that, but what about the baby's body? Maybe the slogan should say, "Mommy and Government, keep your hands off my body, I want to continue to live."

Thank you for listening
