

# Legislative Advisory Committee - 2022 Session Return to the State House Planning

This survey supplements the interviews we will have in the coming days with more useful info. We have a charge to submit a report by 8/15/2021 recommending the most effective approach to reopening the Statehouse and in a safe manner for the 2022 Legislative session. Please provide the Pros and cons of each of the four options shared yesterday from your perspective and knowledge of using this venerable building in the past in person as well as with the innovations experienced in the 2021 session.

\* Required

1. What is your role on the committee? \*

*Select all that apply*

- I am a house member
- I am a senate member
- I am appointed member of a state agency or department
- I provide a support or advisory role to the committee or specific members
- I am from legislative operations
- I am from a state partner organization on the committee
- I have a leadership role on this committee
- 

Other

2. What is your title, and what is your organization? \*

## Pros and Cons of the Return to the Legislature Options

We welcome your feedback on the below four options shared at our recent meeting. Please keep your answer short and to the point, more in a list form as possible, or separated by commas. Also, keep in mind the innovations and new hybrid ways of running the legislature last sessions, as well as gaps experienced.

## Option 1 - Use HVAC optimized statehouse committee or other rooms in person.

This means using the rooms designated to be suitable from an air-flow standpoint for regular committee meetings.

3. Pro's of this option from your perspective? \*

4. Con's of this option from your perspective? \*

## Option 2 - HVAC optimized statehouse committee rooms along with 109 State Street rooms

This means using the statehouse rooms designated to be suitable from an air-flow standpoint for regular committee meetings. This also means supplementing their use by also using designated rooms in the 109 State Street link and the 4th floor.

5. Pro's of this option from your perspective? \*

6. Con's of this option from your perspective? \*

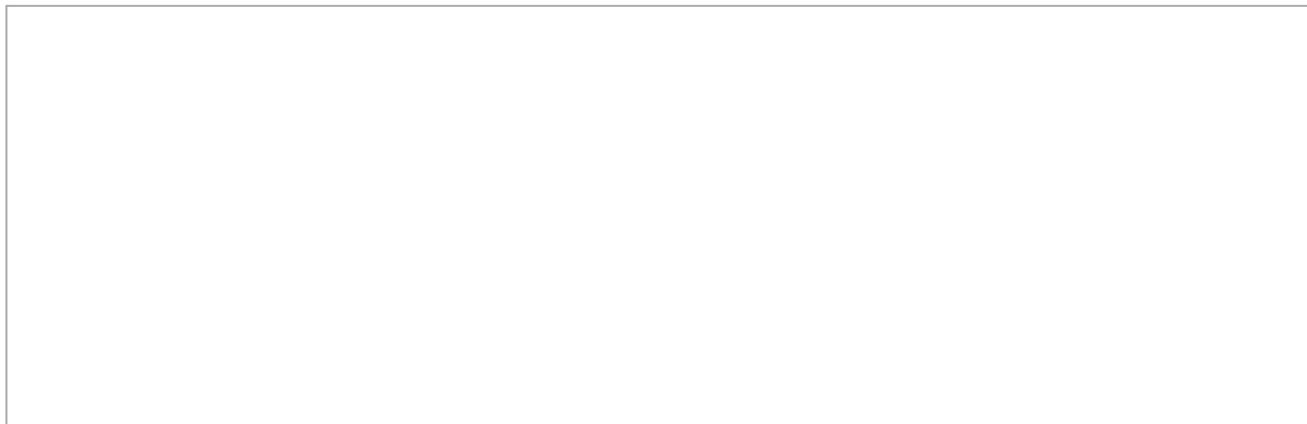

Option 3 - Use all the spaces mentioned above, plus the basement of 133 State Street.

7. Pro's of this option from your perspective? \*

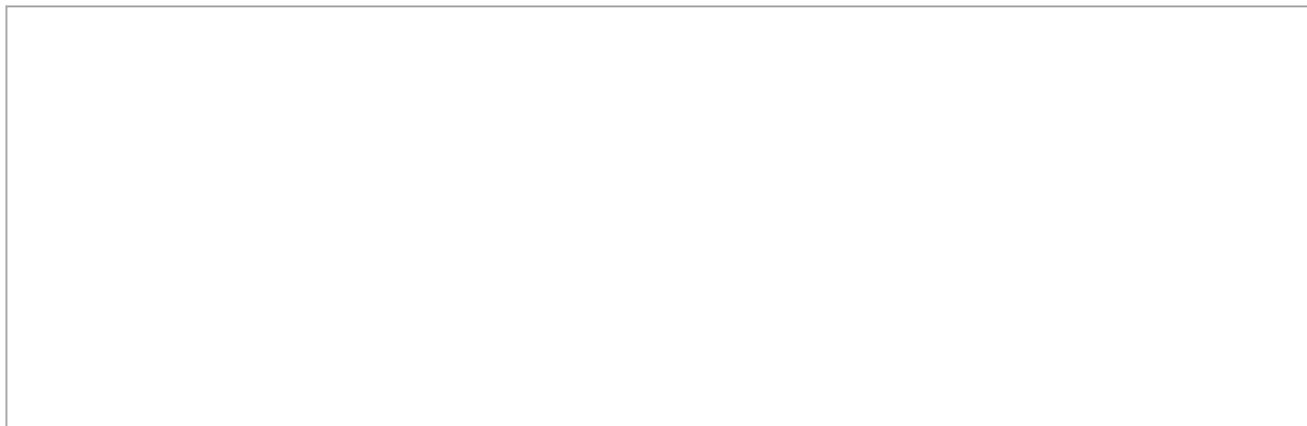

8. Con's of this option from your perspective? \*

Option 4- Ignore HVAC and Airflow analysis. Just go back to the way we did it before.

9. Pro's of this option from your perspective? \*

10. Con's of this option from your perspective? \*

## Please rate all options with stars to indicate your preferences

Award the most stars to your favorite option and the least stars to your lowest choice one.

11. Ignore HVAC and Airflow analysis. Just go back to the way we did it before. \*

12. Use the airflow optimized committee rooms in the statehouse, plus the added rooms in 109 State Street \*

13. Use the airflow optimized committee rooms in the statehouse only \*

14. Use the airflow optimized committee rooms in the statehouse plus the added ones in 109 and 133 State Street \*

15. Please tell us more about your favorite choice and why you selected it? \*
