Sovernet's Fiber Network Offers Speeds up to 100 Gbps!

Sovernet offers WAN, point-to-point, and dedicated Internet solutions ranging from 10 Mbps to 100 Gbps, as well as Ethernet long haul transport from Boston through New Hampshire, Vermont, and New York.

Sovernet's expansive 4,500 route mile geographically diverse network is a Carrier-grade state-of-the-art fiber optical network with speeds up to 100 gigabits-per-second and more than 110 rural and metro points-of-presence.

The network is fully monitored 24/7, with traffic carried over a fully redundant core. With connections to multiple Tier 1 providers, and a commitment to the highest levels of redundancy, you can be assured that your Sovernet services will be available when you need them. Sovernet's data services are dedicated (not shared).

With speeds to 100 Gbps, fully diverse network paths, cutting edge optics across the footprint, and the largest, most advanced network of its kind spanning from Buffalo to Boston, Sovernet's Ethernet services satisfy the most exacting customers, Carriers and Enterprise alike.

Sovernet Fiber Network Key Benefits:

RELIABLE

Sovernet goes the extra mile to ensure the reliability of your data and Internet services and owns and operates the network. Sovernet employees pride themselves on providing the one-to-one custom solutions that customers want and deserve.

ROBUST

Sovernet's fiber network uses state-of-the art Carrier-grade Ciena equipment, ensuring that customers have the most robust data solutions available, including service speeds up to 100 Gbps with capacity up to 8.8 terabits.

SCALABLE

Sovernet's dynamic, flexible network offers businesses scalable applications and services that can grow without disruption.

SOVERN^{ET} COMMUNICATIONS

THE
University of Vermont
MEDICAL CENTER

"The scalability this new network provides us, along with the security we demand, and Sovernet's reputation as a local provider who puts its customers first, helped us make this choice."

Dan Davis
*Vice President, Supply Chain & IS Operations
UVM Medical Center*

CAPSTONE
COMMUNITY ACTION

"Our commitment to provide critical outreach to Vermonters demands the level of service Sovernet has provided us over the past four years. Whether we are assisting in crisis situations, weatherizing homes, or providing resources to businesses, we not only need robust communication systems that we can count on, but scalable services that can change and grow as needed into the future. Sovernet's hosted PBX and fiber broadband and its unsurpassed customer service have the qualities we demand."

Sarah McMullen
*Deputy Director
Capstone Community Action*

Vermont Foodbank

"Sovernet shares our commitment to a Vermont where no one goes hungry. They partner with us to ensure nutritious food is available for people struggling with hunger, by offering both robust and reliable communications services and through donations. We particularly appreciate that Sovernet challenges and encourages their customers to join them in the fight against hunger."

John Sayles
*Chief Executive Officer
Vermont Foodbank*

WCSU Windham Central Supervisory Union

"In all respects the Sovernet network is outperforming all our expectations. Teachers no longer have to wait or have a backup plan if lessons didn't download as expected."

Matt Martyn
*Director of Technology & Professional Learning
Windham Central Supervisory Union*

"Using Sovernet's fiber network allows us to focus on zero downtime for our customers. We live by our slogan 'Here When You Need Us!' To do that, 100 percent network up-time is absolutely required at all five of our locations."

Shannon King
*Technology Director & Vice President
Hickok & Boardman Insurance*

Vermont Land Trust

Conserving Land for the Future of Vermont

"Since 1997, Sovernet has helped the Vermont Land Trust connect to members, partners, and owners of conserved land. Sovernet's reliable fiber backbone and a hosted PBX, backed up by great customer service, are essential to our work."

Teija Huttunen-Green
*Director of Operations and Technology
Vermont Land Trust*

Sovernet proudly serves Vermont and beyond!

Sovernet Communications provides state-of-the-art data and telecommunications solutions throughout Northern New England and New York. We strive to deliver superior customer service while adapting to the needs of our customers to create the best telecommunications experience possible. Mission critical connectivity, reliability, and a total commitment to customer satisfaction make us the best local choice.
