

Dear Legislators,

I am unable to attend the public hearing today for the HB 57 legislation, but I would like to voice my objection to it.

This goes completely beyond abortion - it is infanticide. Children, whether they are "accidents" or "intended," wanted or unwanted, 39 weeks in utero or 1 week old, are children. Please enact laws that protect those without a voice and support women so they can choose to give their children life.

Thank you for your consideration,

Katherine Reis
Milton, VT
