Service Regions by Technical Center

Career and technical education is provided statewide through sixteen service regions. Each service region is served by a technical center(s) and/or comprehensive high school(s). School districts and independent high schools are assigned to a technical education service region.

The following list has been prepared based on information contained in the Vermont State Board Manual of Rules and Practices, Rule series 2370. A list of service regions sorted by school districts and independent high schools is also available.

NOTE:

- * Canaan: Canaan School does not send to a regional technical center because it is geographically isolated and offers technical education programs.
- ** Chittenden County Service Region: Burlington Technical Center; Center for Technology, Essex
- *** St. Johnsbury Service Region: Applied Technology Center at St. Johnsbury Academy; Lyndon Institute Technical Center
