

The Vermont Virtual Learning Cooperative works with and supports Vermont schools to facilitate online courses for students statewide. Our goal is to overcome the three most common barriers that prevent students from taking the courses they want or need in schools. These barriers are **availability** of courses, **accessibility** to courses and the **flexibility** in education.

Vermont's Online Course Provider

- Greater **AVAILABILITY** of courses not offered locally
- Greater **ACCESSIBILITY** to courses where scheduling conflicts exist
- Greater **FLEXIBILITY** for students to take courses at times that increase their success
- Provides virtual solutions to all of Vermont's Supervisory Unions and Districts
- VTVLC offers hundreds of online courses, including NCAA approved core academics, Common Core Aligned curriculum, learning recovery, electives, world languages, honors, Advanced Placement courses and Professional Development

"The online aspect has given me the flexibility that supports my busy schedule while still allowing me to keep up and excel in my academics. I can't imagine not being a part of such an unbelievable program..."

Tara Barney, VTVLC Student

Vermont

DIGITAL LEARNING STATE SNAPSHOT

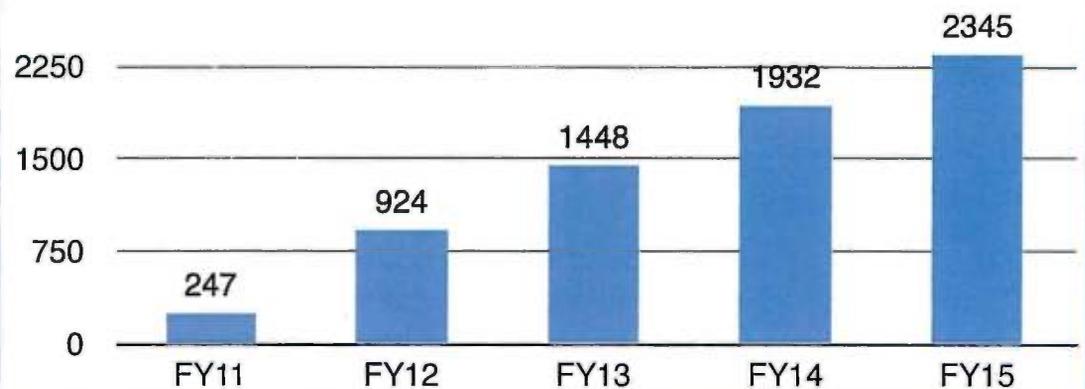

There are no dedicated fully online schools in Vermont, although VTVLC served **11 fully online students** in SY 2014-15.
